Grape varieties	:	100% Merlot
Type of soil	:	fine gravel on clay
Production	:	approximately 10,000 bottles

This tiny and 100 % Merlot-planted property is contiguous to Châteaux HOSANNA and PROVIDENCE on the famous plateau of Pomerol. The on-average 25 year-old vines spread over a beautiful gravelly soil mixed with clay. The vineyard management as well as the vinification are carried out in the traditional manner and 50 % new oak barrels are generally used for the ageing.

The wine is supple and generous and from its youngest age, very seductive.

A new label, with a flowering columbine, has been created as of the 2000 vintage.
